ROTOR

Live

9TH – 10TH MARCH 2019

The Sales and Presentation Fair for everything to do with Model Helicopters and Quadrocopter

Dear madam or sir,

the annual fair **ROTOR Live** will take place next spring. The continuous success and rising numbers of visitors confirm the fair as an important date on the industry's calendar.

Also in 2020, a location, not minor than the international famous racecourse in Iffezheim near Baden-Baden will be the scenery for manufacturers, retailers and consumers to exchange information, represent themselves and admire novelties.

We warmly invite you as an exhibitor to **ROTOR Live** the 14th and 15th of March 2020. You get the opportunity to personally contact your clients, show your presence and with this promote in your own behalf. Not to forget to use the fair as a platform for direct sales and turnover.

With the informations attached, you can order your stand, the advertising stuff, the allocation of aviation slots and the seminar room.

For further details and information please notice the documents attached.

If you have any questions don't hesitate to contact

Georg H. Ongsieck

Tel. : 0049 7221 952116

Mail: georg.ongsieck@msv-medien.de

Application closing date is the 15th of December 2019.

We are looking forward to welcome you at the **ROTOR Live** in spring 2020.

With kind regards from Baden-Baden

ROTOR

14TH – 15TH MARCH 2020*Live*

The Sales and Presentation Fair for everything to do with Model Helicopters and Quadrocopter

The fair for model helicopters and quadrocopters only

A fair only for this specific branch enthralled 12.500 visitors last year. The advantage to the visitor is that he does not have the tedious task of searching through hall floor plans in order to find companies of interest to him, while the exhibitors have the luxury of being able to address their circle of customers directly.

Date

Rotor Live will take place th 14th and 15th of March 2020. Application closing date is the 15th of December 2019.

Location

As in the years before the racecourse at 76473 Iffezheim, near Baden-Baden proved to be the best choice for the event. It offers 3.000 sqm of exhibition area on two levels. From large, covered grandstands you can admire the open-air flying demonstrations

Stands

The room height on level one is 3,90m and 3m on level 2. Please consider this when planning and booking and indicate the height of your stand at registration.

Please note that every stand must have back and side panels, which have to be organized, assembled and removed by the exhibitor and your stand must feature a clearly recognisable company name attached to the back and side walls. Exhibitors are also responsible for disposing of any packaging waste, which is produced at their stands. To ensure this we raise a deposit of 200€ by arrival which you get back after proper removal of the stand.

The rental of your stand also includes admission for at least two persons. For every three sqm one further person is included. For example: For a stand of 3x3m or 9sqm you can announce 2+3 persons. You are also entitled to purchase as many additional preferential tickets as you wish for, every additional person is charged with 10€ to be paid on location.

Outdoor area

Additionally to the stands indoor you have the possibility to rent an area outside the building. The price is 50 € per sqm. For this you are welcome to call or contact us by mail.

Erecting and dismantling stands

Stands should be erected on Thursday or Friday, while the following Monday is set aside for dismantling.

Of course, it will also be possible to start the dismantling process on the Sunday once the Fair itself is over.

Accommodation

In the surrounding area are numerous hotels and guest houses. You can find a choice of them on www.rotor-live.de.

Banners / Fags

Your company's banners or beach flags are very welcome on t, provided that you have agreed this with us beforehand. When you register, please state the provisional number of banners and beach flags you would like to erect. Flightline aufhängen.

Security

The Fair premises will be locked outside Fair opening times, and will be guarded by our Security team. During the Fair the site will be patrolled by security staff, who will be glad to help you if you require assistance. Please note that you will be responsible for your own stand, including its inventory and products, during the Fair itself and for half an hour before and after the Fair opening times.

Flight Show

Every exhibitor will get flight slots in ratio of the size of the stand. The Show will happen between 10a.m. and 5 p.m. Only after all registrations have been processed the exact length of the slot can be announced. In case of bad weather the slots can be shortened to offer every exhibitor the chance to show his products. Please note that this is a show for novelties. You can introduce products to the audience that you produce or have in charge of sales. The registration of the pilots by name has to be done until the 1st of February 2016. The briefing for the pilots takes place on Saturday, 9a.m. in the lecture area. It's a duty for pilots to take part on this. Pilots who don't will not can't access to the flight show. For pilots who want to take part on the flight show on Sunday only we can organize a briefing on Sunday 9a.m. if you wish for

Please take care that your pilots are insured sufficiently and able to proof this. Pilots who are not adequately insured cannot take part on the flight show. For models owned by the company you have to show a commercial liability insurance

For safety purposes only helicopters are permit to fly and they have to be controlled by 2.4 GHz systems approved for use in Germany. The maximum take-off weight is limited to 25 kg. If you aim to use a model that is heavier but has an authorization by the LBA please indicate this in time before the fair so we can get a license corresponding to your model. You are provided a sepa-

ROTOR

14TH – 15TH MARCH 2020*Live*

The Sales and Presentation Fair for everything to do with Model Helicopters and Quadrocopter

rate room for the preparation of the models. From there you have direct access to the flight area. Please give the data sheet of your model to the presenter before the show so they can be announced properly. After the flight please take it back to yourself. You can find the form either on www.rotor-live.de or attached to your registration documents. Without this sheet your model will not be announced. To have music during your flight please hand in the music to the presenters tent on CD, USB device or MP3-Player. Models with two shaft turbines can be started from a separate preparations room and be flown in the flight area from there

Presentations

A separate space will be available in which you or your pilots can give a talk or presentation relating to your products and models, or perhaps provide constructional advice. Please be prepared to answer questions from those attending. The opportunity of giving a talk is freely available to all exhibitors, but we reserve the right to select from those on offer if the facility is over-subscribed. For this you are provided a speakers system, a digital projector a notebook with power-point software and the usual video players. Of course you can bring your own notebook as well.

Advertising stuff

You can use your appearance on the fair for promotion in advance! For this we provide free flyers and stickers with the writing "we exhibit on the fair". Especially for the purpose of customer bonding you can have 40x40mm adhesive labels to show your customers for example on bills that you exhibit on the **ROTOR Live**

The amount of the advertising stuff will be in accordance to the size of your stand. Of course you

can order a bigger amount for reimbursement of expenses. Please order the amount as required by registration. We dispatch will be in time with the toys fair in Nuremberg

Amount free per sqm: flyer: 1.000 stickers 500
Price: per 1.000 flyer 4€ per 500 stickers 15€
